Hello Steve,

Please find attached the VI Mitigation Work Plan for your review. The Work Plan was revised in redline to reflect the SS screening level (AF of 50) discussions from the meeting held on September 10, 2015.

GHD has rescheduled the sampling at B&G Trucking Building 8 to Tuesday, October 8th. On the originally scheduled sampling date of September 29th, GHD discovered that the fans at Extraction Points 1 and 2 were not operational. The fans were replaced on Thursday, October 1st.

Should you have any questions or comments, feel free to contact us.

Valerie Chan, P.Eng.

GHD
